If the marketer provided a range of customer service fees based on credit scores, then that marketer's "Total Monthly/Annual Bill" Calculation is calculated by using the average of the range. Specific customers total bill calculations may be different depending on the marketers' credit criteria.										
(a) The prices billed to a consumer on a variable rate plan will not exceed the price the marketer has on file with the Commission in effect at the beginning of the consumer's billing cycle (meter reading cycle). The prices billed to a consumer on a fixed rate plan will not exceed the price on file with the Commission that was in effect at the time the consumer contracted with his or her marketer.										
(b) The Regulated Provider Group 1 customers - low income customers who are qualified by the State Dept. of Human Resources. Group 2 customers - high-credit risk customers who cannot obtain service from a marketer.
